

Trailer Requirements Prior to Loading

Buffalo Creek Mills (2017) Inc. requires all transport companies to ensure the following:

Every Trailer Must

- Be accompanied with 1 past load history
- Be free of broken components (e.g., glass, wood, etc.), chemical or odorous residues.
- Be dry, of sound condition & clean of previous load or hazardous residues

Hopper Trailers Must

- Be accompanied with documented wash-out if previous load contained:
 - * Distilled Dry Grain * Fertilizers * Treated Seed/Additives
 - * Strong Odours
- For Gluten-free¹ or Organic² loads, possess documented wash-out if previous load contained:
 - * Wheat, Triticale, Soybeans, Barley, Spelt, Rye¹ * Conventional Grain²

Dry Vans & Intermodals Must

- Be free of pooling water or snow/ice
- Be free of damage to doors and door hinges
- Be free of stains of hazardous material. Eg - Petroleum or Chemical
- Dry if washed out (wash ticket required if stating the trailer was washed out)
- Swept if not washed out
- Trailer must have min of 2 straps to secure load (if Carrier fails to bring straps, BCM will supply straps with cost going to the Carrier)
- Wooden walls will not be accepted
